

STARTER PLAN RATES

When someone calls your 0800/0508 number you will be billed per minute and they get to call you for free.

If you have your 0800 or 0508 number redirected to another NZ number you will also be charged the outbound calling rate per minute as this is the same as you making an outbound call.

If you want to avoid this charge you can point your 0800/0508 number to a VoIP phone or use our free app Secure VOIP app that can be downloaded from the app stores.
